Our Wines Are The Real Thing!

Cocoa Beach Winery offers tropical wines made here in Florida from the finest, freshest, hand-selected fruit, then squeezed and fermented using the highest quality products available. All of our premium specialty citrus wines are made from 100% pure Florida citrus juice. It can take upwards of 9 pounds of citrus fruit to give us enough juice for just one bottle of our wine. We invite you to visit our winery in Cocoa Beach, Florida and participate in our daily wine tastings. It is an experience you will always remember and you're sure to find a selection of wines that match your taste. We also provide shipping. –

Welcome to Cocoa Beach Winery

Our wines have won National and International recognition at the number one fruit judging contest in the United States. To date, our wines have won 320 medals. The key to their success lies in the quality fruit and alchemy of a great wine maker.

In January 2000, for the first time in its 65 year history, the Florida Citrus Commission approved the use of one of its licensing marks on a beverage other than Orange or Grapefruit juice. Our wines have been granted the right to use the "**FLORIDA SUNSHINE TREE**" logo on all our citrus wines
